The Future World School has world-class infrastructure with spacious, airy and naturally-lit classrooms, suitable for the children to learn and explore. Our experienced faculty always finds a way to identify the inherent potential of the children and nurture them by creating opportunities, encouraging them towards innovation. Our school is situated at an eco-friendly environment with a wonderful playground, where the young minds feel happy, become confident to exhibit and explore their talents. We offer national and international curriculum, to bring world-class education to children for building a beautiful future.

DIRECTOR'S SPEECH

Life is not a set of instructions but a series of experiences and learning processes. And learning is not about following a set of commands. It is about having a passion that goes beyond books, instructions and conventions.

At Future World School, we try to instil in our students the values and ethics that form the basis of a bright future and more importantly, a good human being. To enable this we provide a stress-free learning environment that encourages both creativity and critical thinking. An environment that allows you to question without fear and create path-breaking tomorrows.

PRINCIPAL'S SPEECH

A school is a place that shapes not only those who study there but the nation as a whole. Future World School attempts to do just that in its unique, special way.

We instil the love for learning in students. We provide a holistic environment that nurtures talent, encourages different points of view, and shapes attitudes and values that will hold them in goodstead. The future belongs to the youth and it is our hands to make them confident and kind, sensitive and sensible, and strong enough to take on challenges as they create a better tomorrow.

Luckily we have all that it takes to create a school that leaves an indelible mark on all those who study here; dedicated staff, supportive parents and excellent students. Together we are poised to make continuous and sustainable advancement in whatever we do.

OUR MISSION

To create opportunities and an environment conducive to learning. A safe haven that nurtures critical thinking, creativity and curiosity and enables each individual to reach his or her greatest potential.

OUR VISION

To create well-rounded, compassionate and responsible thinkers, game changers and mind and industry leaders with world-class education. And to instil in students the love for learning coupled with the confidence to try new things without the fear of failure.

OUR INFRASTRUCTURE

A well-planned and effective infrastructure is crucial for every school. Our spacious classrooms are thoughtfully designed to inspire students to pay their undivided attention towards studies. On an average, 30-40 children can sit in every classroom. At FWS, we provide:

- Adequate separate sanitary facilities for students and staff
- Electricity and internet facilities
- RO drinking water
- Power backup
- Safety initiatives like fire equipment and multiple exits for emergency situations

OUR ENVIRONMENT

Providing top-notch facilities that encourage students to aim higher, FWS has a positive and safe environment. With regular exposure to greenery, our objective is to shape the overall well-being of our students.

MIND MATTERS

Welcome to India's First Cognitive Neuroscience School

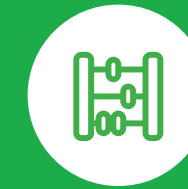

At the heart of everything at Future World School is mind-gym. A belief that with the right kind of training, diet, exercises (mental and physical) and education the brain becomes sharper. Sprawling across 10 acres of picturesque greenery, right in the heart of Visakhapatnam, the school - envisioned and led by a team of doctors - has woven into its curricula, well-researched techniques and scientific methodologies that give a boost to the brain.

At Future World School we...

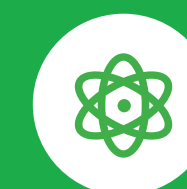

IDENTIFY

every student's strengths with psychometric tests

MEASURE

the brain activity of children and help them realize their full potential

BELIEVE

in the latest digital evidence-based implementation of education

PRACTICE

a mix of strategies for teaching namely pedagogy and andragogy

Future World School has:

- Classrooms, three times more spacious than the Government specified norms
- State-of-the-art laboratories
- Sprawling grounds for sporting activities
- Guest lecturers from Oxford University, IITs, IIMs, ISBs, INSEAD and other reputed universities
- Twice a year full-body examination and diagnostic test for students, their siblings and parents
- On campus boarding facilities

EDUCATION

Choosing the right curriculum is critical to future career opportunities which is why Future World School offers not one but two types of curricula: CBSE and State Board.

The CBSE Board

The Central Board of Secondary Education (CBSE) is a national level board of education in India for public and private schools. Controlled and managed by the Union Government of India, this student-friendly board follows the NCERT curriculum. It is particularly designed for students who have their eyes on getting into IIT or AIIMS.

Get the CBSE edge:

- CBSE is a recognized national level board
- Several schools across India are affiliated to CBSE which makes it easier for children to get admissions and adjust in case of transfers
- CBSE allows both regular as well as private students to sit for exams
- All major nationalized competitive exams like JEE are conducted by CBSE

State Board

The curriculum is moderately loaded which leaves time for extracurricular activities and a more rounded development. Moreover, it allows students to study subjects in their regional language.

Get the State Board edge:

- The syllabus is personalised and includes lessons on the history and culture of that region and state
- The curriculum not only focuses on local history but also national and world history
- The State Board focus on regional languages and students can use a local language to study the various languages

LIBRARY

Packed with over 10,000+ books the school library is a repertoire of information across subjects.

LABORATORIES

To aid learning, state-of-the-art labs allow students to put theories into practice. Opportunities abound for students who want to take part in projects and learn hands-on.

Science labs

Space for experiments and creating something new

Computer labs

With high-speed internet for quicker access to information

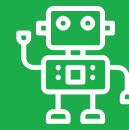

Social labs

A fun zone where academic experience plays with worldly knowledge

Mathematics labs

Filled with charts and instruments that students can use to explore the world of numbers

Robotics labs

Where technologies of tomorrow find a space

ONLINE AND OFFLINE CLASSROOMS

Our digital classrooms are interactive and fun. They allow students to catch up on their classes and interact with hand-picked teachers and other students from different parts of the world.

Our offline classrooms are no less. The faculty's expertise and experience gets the support of technology to deliver effective and impactful classes.

What makes the classes great besides the teachers, is the way the classrooms are designed. They are spacious, airy, have 24x7 power back-up, fire-safety measures and non-stop internet.

HOME AWAY FROM HOME

Unwinding is as important as diving into information. Future World School offers enough room for boarders to relax and recharge on campus. Not to mention that they don't have to worry about food or safety.

- Spacious rooms
- Recreational area
- Study area
- Dining area

GAMES THEY PLAY

A fit body is the first step to a fit mind. At Future World School we treat sports not just as a recreational activity but as a way one learns to solve problems, think critically and plan strategically. Our school playground located at an ideal location provides a safe environment where students interact with one another and take part in different physical activities. This helps the children to develop their physical coordination and strength which influences their social and emotional development.

Outdoor:

- Long jump
- Short put
- Discus throw
- Basketball
- Volleyball
- Shuttle
- Cricket practice nets
- Tennis
- Football
- Throwball

Indoor:

- Table tennis
- Carrom
- Chess

PSYCHOLOGICAL ASSESSMENT AND EVALUATION

Our in-house psychologists and part-time psychiatrist keep track on every child's performance and state-of-mind.

They record their cognitive, behavioural, social and emotional skills and counsel them.

HEALTHCARE FACILITIES

We offer complete preventive healthcare facilities for students and parents twice a year.

This initiative is done by collaborating with renowned multi-speciality doctors.

FOOD FOR THE MIND AND BODY

Future World School looks at the holistic development of every student. Which is why, our daily drill includes a healthy mix of activities that promote fitness of both mind and body. These activities are held in designated 15,000 sq. ft. halls.

Yoga: Sharpens focus and memory. Reduces anxiety and stress.

Pranayama: Relieves muscle tension.

Karate: Strengthens the mind and body, improves thought process and confidence.

Music: Vocal and instrumental music lessons relieve stress and enhance concentration.

Dance: Classical and western dance classes boost confidence and build stamina.

Art & Craft: Develops hand-eye coordination and creativity.

COMPETITIVE SPIRIT

Competition is good, in the right measure. At Future World School we teach students to go outside their comfort zone, take risks as they better their cognitive skills.

Types of activities:

- Quizzes
- Elocution
- Essay writing
- Debates
- Art & craft
- Sports
- Music

TRAVEL SAFE

Safety is key. We have school buses with GPS tracking and cameras picking up students from their house. Each bus has a transport attendant to keep track of things and all those on-board are trained in first aid and emergency management.

LIFE SKILLS

Teaching life skills supports students' personal growth to deal with the challenges they face in life effectively.

- Communication skills
- Creative and critical thinking
- Self-awareness and self-control
- Problem solving
- Decision-making
- Positive behaviour
